

802.11 Wireless Vendor RFP #112-0604
Questions and Answers

- 1. It is stated in the RFP that the State currently operates a non-centralized system. Who is the contractor for this system, if not created internally?**

The current system is internal and will be replaced.

- 2. What is the estimated funding needed for this project?**

The funding for this project will be determined upon receipt of the proposals.

- 3. RFP states:“3.01....The State will provide all necessary physical infrastructure and network facilities.” Does this include the wiring/cabling to all access points, etc.?**

Yes, this includes internal wiring, network POE switches, etc. to support connecting the requested solution.
